

What we can do for you...

Following a road incident we will provide immediate **FNOL** services ensuring the **claims handling** process begins straight away.

We use **fraud monitoring** databases to screen claims and endeavour to work with other claims companies and Insurers to combat fraud.

By using **branded products** we can secure your companies identity in the mind of your customer.

Nationwide **repair management** will make sure your customer's vehicle is repaired and returned in as short a time as possible.

Our specialist **replacement vehicle** provision promises limited vehicle off road time regardless of whether a small car, a prestige vehicle or an HGV is required.

The **ULR** service will ensure that any expenses relating to the accident are recovered and **credit hire and repair** services will be provided if required and where suitable.

Our panel of solicitors will provide **legal advice and assistance** when needed and our **legal expense policy** will ensure that legal costs are covered should action need to be taken.

Are you looking for the right credit hire partner?

Who we are

Magna Accident Services Ltd is a family run company based in Lincolnshire.

Our team of staff are experienced, knowledgeable and dedicated and we pride ourselves on customer service and attention.

We take a strong, ethical approach towards claims management and we progress claims in a proactive manner.

We understand that by keeping control of a claim and ensuring all losses are best mitigated, both our clients and insurers can be confident their own costs are kept to a minimum.

Magna has a unique position in the marketplace as we provide hire and repair services to all road users regardless of the type of vehicle they drive. For those who rely on specialised mobility for work, our replacement vehicle solution can be invaluable.

You can have total confidence that claims will be handled responsibly and efficiently.

We offer flexible, bespoke packages to suit your needs

Broker Services

Do you find that much of your time is spent dealing with accident claims on behalf of your policy holders? Magna could take this responsibility away from you allowing you to concentrate on more productive work.

We offer a bespoke solution to the often complicated process following road accidents. If you wish, we can provide a fully white labelled service, ensuring your brand and reputation is kept in the mind of your client. As specialists in the provision of taxis and commercial vehicles we understand the complications often involved in the provision of more non standard vehicles and we endeavour to provide as close to a like for like vehicle at all times.

Our objective is to not only enhance the service you already offer your clients, but also to reduce individual and fleet insurance claims costs. Working in partnership with property claims specialists we are now able to increase our services to you and your client by ensuring any property damaged as a result of a collision is estimated, authorised and repaired as quickly as possible.

In the present climate following the Legal Aid, Sentencing & Punishment of Offenders Act coming into force, it is now even more important to have a Legal Expense Policy in place. We are pleased to offer a Before the Event (BTE) policy underwritten by Focus Insurance which can be purchased for your customers via our website.

Immediately following an incident we can take care of everything.

If you would like to learn more about the package we could offer then please get in touch and we will arrange to visit to discuss your requirements.
